

In today's unpredictable landscape, supply chain resilience is no longer optional, it's a competitive advantage. MiNDCAN Resilient+™ equips organizations with the tools to anticipate and navigate disruption, streamline operations, and strengthen supplier networks. By combining intelligent monitoring, real-time insights, and strategic risk awareness, it empowers teams to make faster, more informed decisions.

MiNDCAN Resilient+™ helps you to:

- Enhance Supply Chain Visibility via Multi-Tier Mapping.
- Improve risk management using disruption alerts and impact assessments.
- Reduce response time during disruptions using accurate insights.
- Boost employee productivity due to streamlined daily operations.
- Increase market share and overall profitability due to improved supply chain reliability.
- Continuously monitor network participants

Ready to get started?

Resilient+™

Key Features:

Get instant alerts on global events that impact your supply chain.

Map your supplier ecosystem with geo-risk overlays and part-to-supplier traceability.

Integrate news, data sources, and apply custom supplier risk scoring.

Built-in playbooks and automated workflows guide your team through disruptions.

A centralized hub brings procurement, ops, and logistics together when it matters most.

Enable role-based access and controlled collaboration across teams and partners.

Track custom KPIs and network health with real-time insights.

Make faster decisions with on-demand analytics, no external tools needed.

Consolidate fragmented supply chain data with connectors to your existing systems.
